19-F	0:10	GG

Total 13:45  
MC = Matt Crane  
GG = Graham Gristwood

With 2 world class competitors, their splits were very close, often separated by only a second or two.

Considering Matt had not been to Burton Dassett before, his time is all the more impressive. Apart from a 30+ second error on control 6, he only lost a total of another 8 seconds to GG on splits where GG was the faster!

Many of the longer legs were completed at under 4mins/km

Matt from the start to 1 (312metres) was ~3.5mins/km!

## Map extract including Micr-O controls

The Micr-O controls were identified correctly by most of the experienced competitors.

If you did have problems, I have included a section of the all-controls map so that you can see where all the controls were in this area.

The correct controls were 170 and 175.

Apologies if you misunderstood my (unclear) instructions and were expecting these controls to have no control codes.
